

**CPC NHC OPC WPC CCB
Meeting Agenda
1630Z – 14 Mar 2018**

I. Enterprise Discussion

A. Schedule of Events (SOE) Enterprise highlights, available [online](#)

❖ WCOSS:

- Production switch from Reston to Orlando on March 14.

B. Upcoming Model Changes and additions – details are available [online](#).

❖ None

C. Proposed upcoming NCO RFC(s) with potential Enterprise effect:

- ❖ Adjust the satellite IDs in GMDSS system. Inmarsat-C will migrate its services from I-3 to I-4 satellites in 2018. The results of the migration will be an approximate 40 degrees westward shift of the coverage of an ocean region. The migration consists of 4 stages. The first stage will start at the end of Q1 2018. The satellite IDs in GMDSS need to be adjusted in order to broadcast the forecast products to the destination MetAreas. To be updated in Boulder on April 2 at 1430Z and in College Park on April 3 at 1430Z. During the failover between non-active and active sites in order to do this implementation, there'll be an outage of 20 min.
- ❖ Update the IOS on all GWSAS Cisco routers and switches to the latest Cisco recommended IOS. NSB has coordinated dates/times with each Center. A few minutes' delay will be seen at each site as the work is being done except at SPC and Boulder, where there'll be an outage of up to 30 min. Implementation to begin at 1300Z on March 19 and be completed by March 22.
- ❖ Make a change to allow a CPC customer to connect to ftp3.star.nesdis.noaa.gov through sftp from server vm-lnx-cpcsat. To be implemented on March 19 at 1800Z.

D. Partners presentation/discussion

II. New Business

- ❖ Scheduled RFCs (Approve/Reject/Defer)
- ❖ Discuss RFCs rejected by the CM staff

III. Old Business

- ❖ Verify Completion of Previously Scheduled RFCs
- ❖ Deferred Items

IV. Announcements/Reminders

- ❖ None

V. Next meeting – Thursday, 22 March 2018 @ 1:30 PM ET (1730Z)
